## About It

**COVID-19** is a respiratory illness caused by the **SARS-CoV-2** virus, which is part of the coronavirus family. The virus was first identified in **Wuhan, China**, in December 2019, and it quickly spread globally, leading to a **pandemic**. COVID-19 led to millions of deaths worldwide, with the number of confirmed cases in the hundreds of millions. The pandemic caused overwhelming pressure on healthcare systems, particularly in regions with high transmission rates. The pandemic disproportionately affected low-income, elderly, and marginalized communities, both in terms of health and economic consequences. Essential workers, many of whom are low-paid and often from minority groups, faced higher risks of exposure to the virus. The COVID-19 pandemic has underscored the importance of global cooperation, rapid vaccine development, and strengthening healthcare systems to prepare for future pandemics.

The COVID-19 pandemic was a global event that reshaped the world in profound and lasting ways. While it led to immense challenges, it also highlighted the resilience of individuals, communities, and societies. The crisis has fostered new conversations about public health, global cooperation, the future of work, and social equity. While the world is still grappling with its effects, many of the changes prompted by the pandemic – especially in terms of digitalization, healthcare reform, and work practices – are likely to have a lasting impact on future generations.

## *Index*

Sr. No.	Chapter Title	Pages
1	<b>Impact of COVID-19 on School Education in India</b> (Nishad Supugade <sup>1</sup> , Dhananjay Mankar <sup>2</sup> )	1
2	<b>An educational review on COVID-19 and Happy hypoxia</b> (Oodally Umaira <sup>1</sup> , Monica P Lata <sup>2</sup> , Varsha Bangalee <sup>3</sup> , Khayati Moudgil <sup>4*</sup> )	12
3	<b>Protocol for the Determination of Molnupiravir Medicine Used For SARS-CoV-2 Infection via Reverse Phase Liquid Chromatography: A Methodical Investigation</b> (Jaya P. Ambhore <sup>1*</sup> , Vaibhav S. Adhao <sup>1</sup> , Bhavana A. Shende <sup>2</sup> , Asawali R. Pawar <sup>3</sup> )	23
4	<b>COVID-19: Pharmacological Interventions and Vaccine Development</b> (Ms Archana Kumari <sup>1</sup> , Ms Priya Sharma <sup>2</sup> )	41
5	<b>COVID -19: Impact of its Waves Management Strategies on India's Health System</b> ( <sup>1</sup> Sanjev Dave, <sup>2</sup> Dr. Anuradha Dave, <sup>3</sup> Dr. Rashmi Pandey)	55
6	<b>Favoural Impact of Nutrient Supplement for COVID-19</b> ( <sup>1*</sup> Devi M, <sup>2</sup> Praveen R, <sup>3</sup> A. Surendhar, <sup>4</sup> Lakshmi Priya V P)	61
7	<b>Long-Term Health Consequences: The Impact of 'Long COVID'</b> (Shivani Pannu <sup>1</sup> , Vanshika Sabharwal <sup>1</sup> , Nicky Kumar Jaiswal <sup>1</sup> , Neha Sharma <sup>2</sup> , Praveen Nasa <sup>2</sup> , Dinesh Kumar <sup>3*</sup> )	79
8	<b>COVID-19 Public Health Challenges</b> (M. Lavanya)	108
9	<b>Complete and Current Information on COVID-19</b> ( <sup>1</sup> S. Evelyn Sharon, <sup>2</sup> M. Vigneshwar, <sup>3*</sup> Devi M, <sup>4</sup> Uma Maheshwari G, <sup>5</sup> Anushya Vardhini V, <sup>6</sup> Tamil Azhagan R)	126
10	<b>The Resilience and Struggles of Microfinance in the COVID-19 Era: Challenges, Impacts, and Future Prospects</b> (Vikash Sadhu)	161
